Mindful Teaching Tips

Create a Peaceful Classroom

Even if your classroom is virtual, you can create calm in your students. As students are working quietly, you can play peaceful sounds, such as those in the Moshi App, as a motivator during focused work times.

If you are in the classroom, work on alternative lighting other than bright overhead lights. Just like at your home, make the teaching space, even if virtual, a calm place to work.

Explain to your students that these things help YOU focus as their teacher, and that's important too!

Mindfulness in the Classroom

Inner Peace with Pablo

Dear Families,

Today our class imagined a beautiful outside place in our Mindfulness with Moshi Series. We heard Inner Peace with Pablo, a story about Pablo, a rainbow-colored paintbrush who imagines peaceful places he likes to paint when he wants to calm down.

Take a walk outside together to a natural area if you are able. Take in the sights and sounds and help your child notice details about the scene. Invite them to write or draw about their outside place. Next time they want to relax like Pablo, they can remember the calming details of their beautiful outdoors scene.
