Make Your Own Patience Mini Book

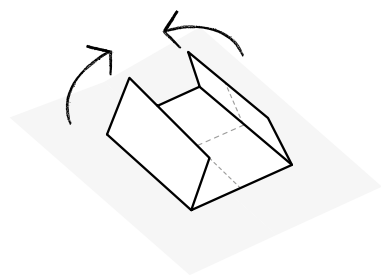

Step 1: With the images facing down, fold the book template in half, lengthwise.

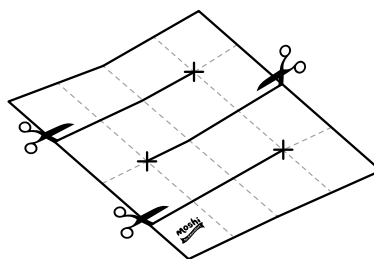

Step 2: Now, fold each side in toward the middle crease.

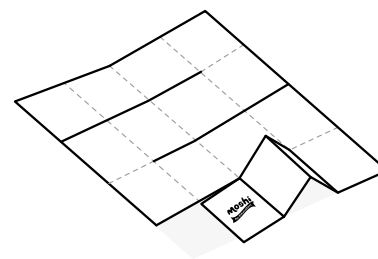

Step 3: Unfold and lay the paper flat and facedown, then fold it down the middle on the short side.

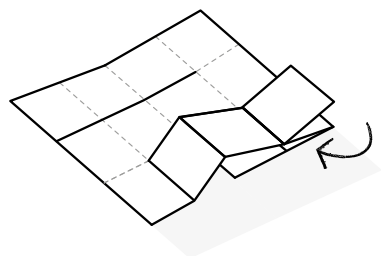

Step 4: Now fold the sides in toward the new middle crease.

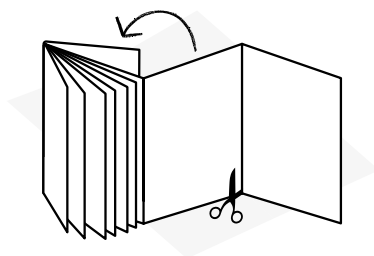

Step 5: Unfold and lay your paper flat again. Carefully cut along the three cut lines, starting at the scissor symbol and stopping when you reach the X. This will create a zigzag.

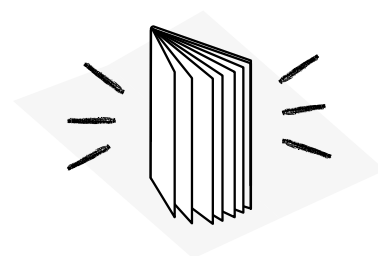

Step 6: With the front and back covers facing you, fold page 1 behind the front cover and page 2 into page 1, like an accordion.

Step 7: Fold page 3 down behind page two, then continue folding in a zigzag accordion pattern.

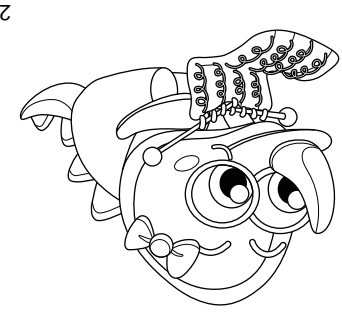

Step 8: Cut off the final page, then glue the back cover (Moshi logo) to the last page.

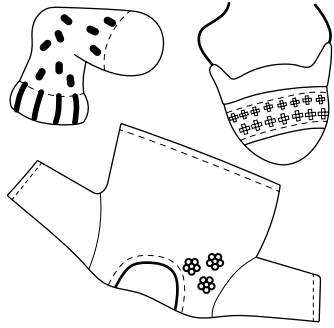

Hooray! Your Patience Mini Book is complete!

[Watch this video tutorial](#)

One thing that helps
Doris knit is her
patience.

Doris is a cute little
Moshling plotomus who
is famous for knitting
lots of amazing things.

Patience
with Doris
& Topsy
Turvy

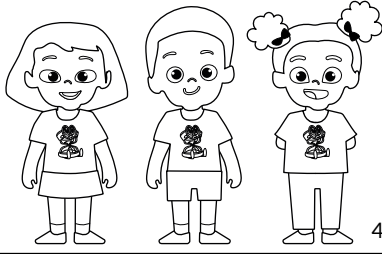

Moshi!
for Educators

Patience is all about
being able to wait for
things without getting
angry or upset.

**Patience is
part of life.**

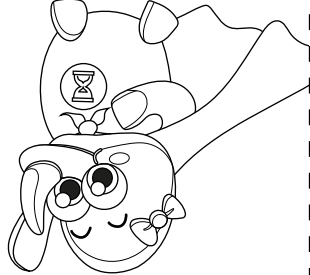

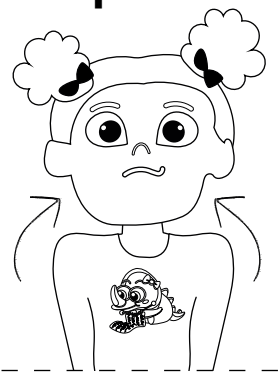

There are a lot of
things we wait for:

- a. Waiting in line
- b. Waiting for food
- c. Waiting while
someone speaks

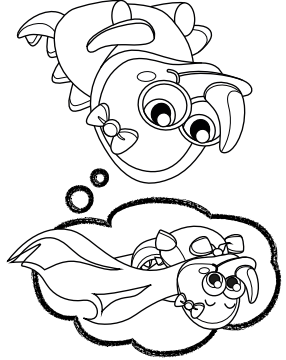

**Topsy
Turvy hates
waiting.**

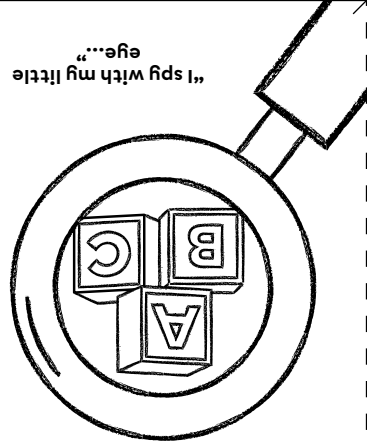

Doris asks Topsy Turvy
to take a
deep breath

Patience is continuing
to try something when
we feel like
giving up.

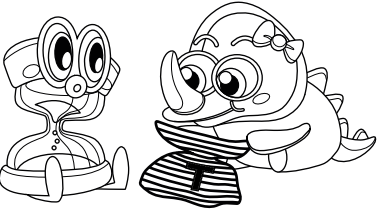

Doris also imagines
that she's a superhero
while she waits

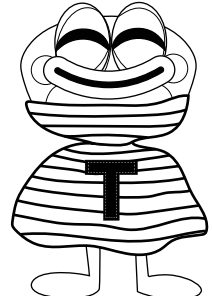

"I spy with my little
eye..."

**When Doris
waits she
likes to
play...
I spy!**

Then Doris finishes the
sweater and gives it to
Topsy Turvy

The best part is that
Topsy Turvy didn't even
notice he had to wait
for it!
